Experiences

July 2021 – June 2026 (+5 year) Tehran
IT Engineer
Kian Ertebat Arvand

As IT Manager at Kian Ertebat Arvand, I led all IT departments, overseeing web development and programming projects. I managed cross-functional teams, optimized operations, and drove digital transformation, ensuring technology aligned with company goals to boost performance and innovation.

Nov 2019 – Dec 2021
Software Engineer
Novin Booster

During my time as a Software Engineer at Novin Booster Network, I was responsible for designing, developing, and optimizing high-performance web applications. I worked extensively with modern web technologies, focusing on scalable and efficient solutions. My role involved collaborating with cross-functional teams to enhance product functionality, implement innovative features, and improve system architecture.

July 2017 – Nov 2019
SEO Engineer
My Repeater – Booster Company

As an SEO Engineer at MyRepeater, I was responsible for optimizing the company's digital presence to enhance search engine rankings and drive organic traffic. My role involved conducting in-depth keyword research, implementing on-page and off-page SEO strategies, and optimizing website performance for better visibility.
